

CAMP

Our school arranged a camp for middle school. We went to Klong Sai Resort. When we arrived, we had a game in which we had to hunt for our room keys. Our room was big and clean. We quickly arranged our things. We then had swimming. After swimming we went out to play the rest of the games which included bamboo walk and wooden plank racing. My unit won many games. We also had the bon- fire night, in which our unit members had to present something on stage. My unit presented a hilarious play. It was fun watching the others presenting songs, dance numbers and speeches.

The next day we we had many activities too. In the morning, we solved a math sum, made a human pyramid etc. After that we had activities like climbing over a net than sliding down, maze and rafting. After rafting all of us got very wet. We washed up and went for cookery. In which we learnt how to make bread, boiled egg, and omelet without a stove. It was the best day of all. At night all of us talked till late night and had a gala time.

Finally on the last day we packed our things and went to the conference room. There we got our souvenirs, which we had to assemble by ourselves. We made helicopters, cars, dinosaurs etc. We took many pictures of the resort and had a very memorable time!!!
