

# JOURNALISM

My ambition is to become a news presenter and this is my topic. Journalist are the people who are working for news channels and profession is Journalism. Journalism is the practice of investigation and reporting of events, issues, and trends to a broad audience. Although there is much variation within journalism, the ideal is to inform the citizenry. Besides covering organizations and institutions such as government and business, journalism also covers cultural aspects of society such as arts and entertainment. The field includes jobs such as editing, photojournalism, and documentary. There are many fields in the Journalism but I want to become news presenter. A news presenter also known as newsreader, newscaster, anchorman or anchorwoman, news anchor or simply anchor is a person who presents a news show on television, radio or the Internet. Since they are often in front of the screen on TV, or on the mic on the radio, they are often the most famous or notable people on the news staff.
