

## **Middle School Camp 2011**

Camp! Whenever I think about camp, an unusual excitement occurs. I feel so good. On the camp day, we arrived on the camp spot Klong Sai Resort. I started to look around and I felt so happy. Then we had the induction ceremony and we had to look for our room keys. It was so fun! Finally, we got it and went to our rooms. Then we started the activities. Then we started the activities, we even prepared for our talent show for the night. In the Campfire, we had our talent show. Every Unit performed so well. At night, me and my friend were enjoying so much. The next morning, we did some cool activities like carrying a person. I was the one being carried, it was awesome. We had more activities like jumping on rafts in the water and climbing ropes. I loved it. Then later in the afternoon, we had bandaging in the assembly hall. We had to learn some bandages which were demonstrated in front. Then we went down and we started the next activity in which we had to bandage our teacher on some parts. Then in the camp fire at night, we had a fashion show. It was hilarious. I just loved the food and the snacks. But there was only one thing I didn't like which was the rooms. They were too small. At night, in our room, we had a small party with chatting. I even went to my other friends room and took pictures and enjoyed. The next day was very peaceful. We went directly to breakfast and then the wood crafting activity. I couldn't finish my wood craft, so sad! Then we had our closing ceremony, it was exciting. I got few prizes. Then it was time to come back to school, I felt so sad. Camp is over and now we continue our normal days. This year, I loved Camp! Camp was Awesome and Fun! I'll never forget it.
