

School Life

Friends, family, and fun, that's what life is about!
But what about school, many kids have a doubt.
Many children don't like school, and I don't understand so;
Because such a place which gives knowledge and wisdom cannot just be a show!
The school is like our second home where we spend most of our lives,
We should use this gift with all our heart and give a mighty fight!
Some go there to learn, while some go there to play,
And some don't even care what they do, and go to sleep all day!
Many dream of going to school, but all wishes do not come true!
The unworthy ones get a happy life,
While the worthy ones have to suffer and fight!
But in some cases, it is not so true;
The worthy ones get a nice life too!
So all is well and well is all,
Dream bigger my friends, try to break the wall!
Teachers are our elders, students are our friends;
Come on everybody, let's join hands, and make a team again!
Let's try to cross our limits, let's try to exert more;
Let's try to bring out ourselves, and show the world we know!
Let us try to like *school* and see the value of this word,
Because one day, you may be shocked to not know the meaning of nerd!
