

Twilight (Series)

One of my favorite books is the Twilight series. It is a series of four books about vampires and werewolves and is written by an American author Stephenie Meyer. It is actually describing or telling the life of a teenager name Bella who moves to Forks, Washington. In the story she loves a vampire, Edward Cullen, who is 104 years old. The series is told primarily from Bella's point of view, but in Breaking Dawn Part II the story is being told from the point of view of the character Jacob Black who is a werewolf. The unpublished Midnight Sun is a retelling of the first book, Twilight, from Edward Cullen's point of view. The novella The Short Second Life of Bree Tanner, which tells the story of a newborn vampire who appeared in Eclipse.

The four Twilight books (Twilight, New Moon, Eclipse, Breaking Dawn) have consecutively set records as the biggest selling novels of 2008 on the USA Today Best-Selling Books list and have spent over 235 weeks on the New York Times Best Seller list for Children's Series Books. Thus far, the first three books have been made into a series of motion pictures by Summit Entertainment; the film adaptation of Twilight was released in 2008 and the second, The Twilight Saga: New Moon was released on November 20, 2009. The third film, The Twilight Saga: Eclipse, was released June 30, 2010.

I actually just love reading the Twilight series and watch movies. Now, I am waiting for Breaking Dawn to release. The film is to be split into two parts, the first of which is scheduled for release on November 18, 2011 and the second part of the movie will be theatrically released on November 16, 2012. I think the movie will be very interesting. I'll watch the movie and how about you?
